The AmerisourceBergen® FOUNDATION

The AmerisourceBergen Foundation was established in 2014 to positively impact the lives of the people in the communities AmerisourceBergen serves by improving the health and wellbeing of our patient populations. We are united in our responsibility to create healthier futures by investing in our global communities and partnering with organizations to expand access to quality healthcare and educational opportunities. Our recent partnerships with Project HOME, Project CURE, Family Reach and Partners in Health have helped solve on-going operational issues with distribution, fund activations to distribute medical supplies to more than 130 developing countries, create state of the art medical equipment and facilities in developing countries, provide financial assistance to families of cancer patients and more.
